New! Free E-Learning Tutorial: Finding Foundation Support for Your Education

(Updated 4/2004)

The Foundation Center has launched its first online tutorial in the Virtual Classroom area of our Web site. This free e-learning tutorial is designed for U.S. students seeking financial support in the form of undergraduate scholarships or fellowships, residencies, internships, or other awards in order to pursue their education. It offers a step-by-step approach to securing scholarships and covers facts about foundations and other sources of student financial aid.

In addition to facts on foundation support, students will learn how to:

- articulate a plan of study
- create a unique profile to help determine affiliations
- identify potential funders
- understand the application process

The tutorial includes several interactive exercises and assignments, three worksheets, and a self-test to reinforce what you've learned. Also included are extensive links to resources and a glossary of scholarship-related terms. Visit our Virtual Classroom to register and access this new learning tool for free!

<http://fdncenter.org/learn/classroom/index.html>

Also search for your particular area of study, e.g. "paralegal scholarships".
